Hulk and Linda Hogan settled their divorce back in 2007, but it seems the Hulkster is holding out on his ex-wife.

The Hogan's Divorce Settlement

According to the DailyMail.com, this was the settlement of the Hogan's divorce as followed:

- Hulk Hogan and Linda Bollea were married for 23 years but split in 2007
- She was awarded 70% of their liquid assets plus properties worth \$3m in divorce
- Also handed an ongoing 40% share in the revenue from Hogan's businesses
- Linda now claims the 64-year-old wrestler is refusing to pay
- She's demanding he pay her 40% of his earnings or be held in contempt

Linda is claiming that Hogan is committing 'financial treachery' from many of his companies and assets in Florida and demands her percentage to be met from the divorce.

The Divorce was settled back in 2007 due to the fact that Hogan was unfaithful in their marriage and Linda could not put up with the decades of affairs no longer.

Terry Bollea (Hulk Hogan) has yet to comment on the claim.
