LINDA Hogan fired back yesterday at estranged wrestler-hubby Hulk Hogan's (above) creepy claim in Rolling Stone that after she dumped him and started dating a pool boy 30 years her junior, he "totally" understood O.J. Simpson's rampage. "Hulk's serial cheating destroyed our marriage, our family and our future," she told Page Six. Her rep, Gary Smith, said, "Linda and her family are taking these homicidal comments seriously. Her attorney, Ray Rafool, is weighing all options necessary to protect his client."
